Summer Program 2011

Keep Up - Get Ahead

(all ages and levels - individualized instruction available during July and August)

Current research emphasizes that a two month academic gap can be extremely problematic for students with ABI.

Our 1:1 tutoring program provides instruction by a certified teacher/ABI educational specialist which enables the student to maintain their level of academic achievement throughout the summer. We provide individualized academic programming in reading, mathematics and study skills.

Our program is available to fit around the students schedule to accommodate other summer activities. Sessions can be held at the NRIO office, in your home or a community location.

**Cost: \$75.00 per hour
(Transportation not provided)**
